The building of the academics, the libraries and librarian role is very essential. The chief guest today explained higher education and the role of libraries and types of libraries. He explained different types of libraries of Public, Academic and Special libraries. The guest explained briefly that the role of the library in any academic institution can be realized only in the context of the institution’s philosophy of education. This is true of most of the libraries of the world’s academic institutions. Education is a process of learning with an aim to develop the capabilities among the people. Academic libraries which comprise school,

college and university libraries have normally four types of users based on the level of education they cater to. These are:

a) Students

b) Teachers

The main objectives are to serve the needs of the academic community, to collect and store all kinds of reading and reference material and provide reading areas for users by the render lending service appropriate to students, teachers.

The college Principal Dr.Muniswamy Mani speaks about the types of libraries specially focusing on academic libraries importance.

After the Principal speech, the IQAC Coordinator of Dr.K.Siva Prasad, Lecture in Zoology delivered in his speech the importance of the library profession and challenges and dynamic role in the knowledge society.

The college librarian explained the different types of libraries and roles and responsibilities. The college librarian has organized the programme and conducted the vote of thanks in this meeting.
